

Various departments of the college strive for effective curriculum delivery through a combination of time-tested and innovative methods. In addition to the traditional chalk and talk method of teaching, the institute follows ICT-enabled teaching as well. For this very purpose, the institute has four classrooms equipped with LED projectors, one smart room, and a Wi-Fi enabled campus which is used by most of the faculty members extensively in day-to-day teaching to make curriculum delivery efficient and attractive.

Following are the various ICT tools and resources available in the college:

OHP, Laptops, Pen drives, LaserJet printer, Wi-Fi (Dongle), Photocopier, Scanner, Projector, DVDs and CDs writer

Faculty members use different ICT tools such as PDFs, PPTs, Webpages, A-V Clips for effective teaching
